Research Assistant Intern

Remote

- Conducted structured financial market research; analyzed sector trends and synthesized findings into concise research summaries for team deliverables.
- Collected and organized market data from multiple sources to support quantitative and qualitative research reports within tight weekly deadlines.

Projects

Personal Portfolio Website | *HTML, CSS, JavaScript*

GitHub | 2025

- Designed and deployed a fully responsive personal portfolio website featuring structured navigation, mobile-first layout, and smooth UI/UX across devices.
- Implemented semantic HTML5 and CSS3 with JavaScript interactivity; hosted on GitHub Pages with production-ready code structure.

DSA Problem Tracker | *JavaScript, HTML, CSS*

GitHub | 2025

- Built a browser-based tracker to categorize DSA problems by topic, difficulty level, and completion status, enabling structured interview preparation.
- Implemented client-side JavaScript logic for dynamic filtering, progress tracking, and persistent state to improve usability and workflow efficiency.

Regression & Classification Models | *Python, NumPy, Pandas, Scikit-learn*

2025

- Developed end-to-end ML pipelines on structured datasets covering data preprocessing, feature engineering, model training, and performance evaluation.
- Trained and compared regression and classification models; evaluated results using accuracy, precision, recall, and mean squared error metrics.
